UNIFORM FORMULARY BENEFICIARY ADVISORY PANEL

I. AUTHORITY

The National Defense Authorization Act for Fiscal Year 2000, Public law 106-65, Oct. 5, 1999, section 701, amended chapter 55 of title 10, United States Code, by inserting after section 1074f a new section, 1074g, entitled Pharmacy benefits program. Under section 1074g(b), the Secretary of Defense is required to establish a Pharmacy and Therapeutics Committee for the purpose of developing a uniform formulary of pharmaceutical agents, review such formulary on a periodic basis, and make additional recommendations regarding the formulary as the committee determines necessary and appropriate. In addition, the Act (in section 1074g(c)) requires the Secretary to establish a Uniform Formulary Beneficiary Advisory Panel to review and comment on the development of the uniform formulary. Comments of the panel must be considered prior to implementing the uniform formulary or changes to the formulary. Additionally, the National Defense Authorization Act for Fiscal Year 2004 moved the non-governmental employees from the Department of Defense Pharmacy and Therapeutics Committee, thus requiring changes to the membership of both the Department of Defense Pharmacy and Therapeutics Committee and the Department of Defense Beneficiary Advisory Panel. This charter shall establish the procedures under which the panel shall function until such regulations can be published. This panel shall function under procedures established by the Secretary under regulations promulgated to implement this section.
